September 20-22, 2024 (tentative)
Location TBA

★ **The Annual SALUD (Student Advocacy, Leadership, Unity, and Diversity) Summit** is an enhanced version of a previous LMSA National event, the Policy Summit. This event unites high school students, pre-med undergraduates, medical students, residents, and practicing physicians for a weekend full of learning how to fight for enhanced care for underserved communities. The Summit covers vital healthcare themes, including chronic disease, medical Spanish, healthcare policy, allyship, and more. Workshops and panels provide leadership development, advocacy training, and career enhancement as attendees envision their current and future careers in medicine.
